

Home Occupation Business License Checklist

A Home Occupation License is for businesses that conduct business at their residence.

A home office does not necessarily constitute a Home Occupation Business. If you have a home office for your business, but your business is primarily done at your customer's location, and no clients come to your home, please apply for the Mobile Business License.

Please carefully review [St George City Code 3-7](#) to verify that your business can meet the requirements of a Home Occupation.
